UNIVERSITY BACKGROUND

	Logan	Fontbonne
FTE	926	1,383
Majors	Chiropractic, biology & life science, nutrition, sports rehab	Business, Education, Health, Liberal Arts
Physical holdings	45,767 (includes electronic resources)	123,354 (includes electronic resources)
Devices currently owned	10 – iPad	1 – Nook 2 – Nook Color 2 – Galaxy Tab 3 2 – Kindle Fire 3 – Kindle 2 – iPad Mini 8 – iPad Air

SETUP AND IMPLEMENTATION

Logan
University

WHY DID WE DECIDE TO LOAN IPADS?

- Logan recently implemented a new software package called ExamSoft for electronic test taking
 - For security reasons, iPads are the only supported mobile device.
- All incoming students are required to have an iPad
 - Cost of the iPad is part of student's financial aid
- Needed a way for students to borrow iPads for exams
 - Their iPad is not charged
 - Their iPad was left at home
 - LRC seemed like a good fit for loaning instead of IT
 - LRC is setup for checking in and out and has experience already with high cost items

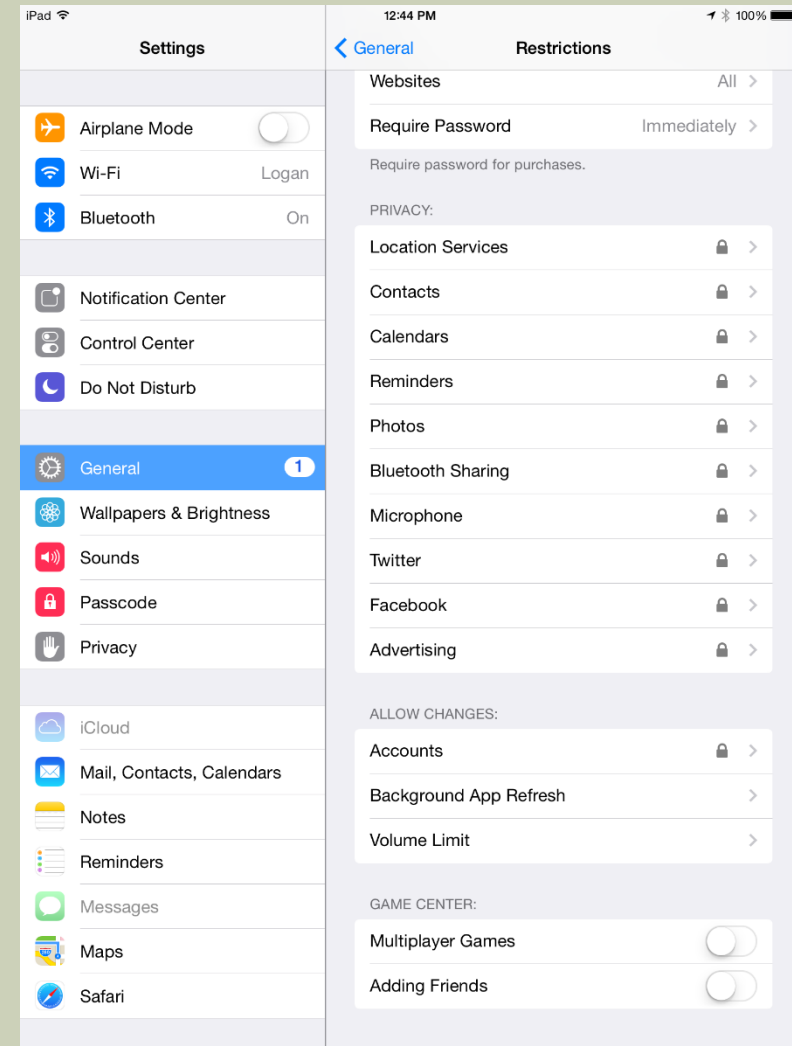

HOW DID WE LOCK DOWN THE IPADS?

■ iPad Restrictions

- Created 4 digit code that only IT has access to
- Locked down everything except for access to ExamSoft and Safari
- Disabled ability to add accounts for email or messaging
- Disabled Messaging (After we had an issue)

RESTRICTION SETTINGS

MOBILE DEVICE MANAGEMENT

- Used for tracking and App management.
- Features:
 - Remote Wipe
 - GPS Location
 - Device Status
 - Send Messages
 - Install Apps
 - Clear Passcode
- Cisco Meraki MDM is free

CISCO MERAKEI INTERFACE

DEVICE CLEANUP UPON RETURN

- Librarians are responsible for cleanup upon return of device
- 4 or 5 steps to reset device back to original configuration
- Easy because the devices are locked down so tight
 - Not necessary to wipe device each time it's checked back in

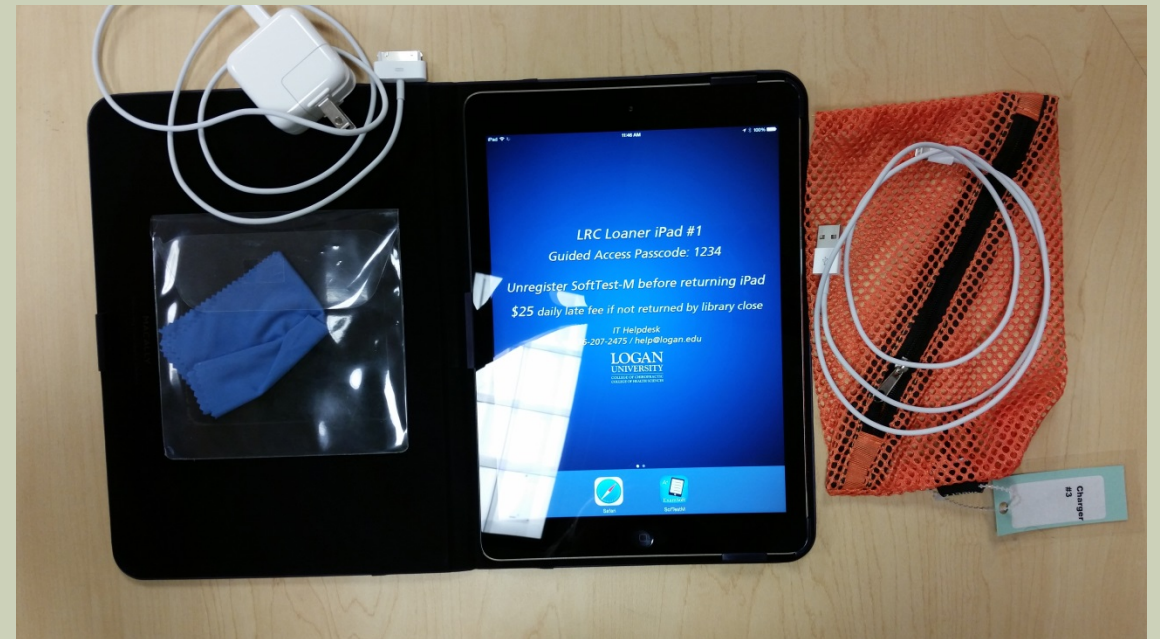

POLICIES AND PROCEDURES

**Logan
University**

LOGAN'S IPADS, THEIR USES, AND OUR USERS

- 10 iPads and chargers (8 and 30 pin w/ USB power adapter)
- Uses:
 - ExamSoft test software
 - attendance taking
 - test administration
 - Safari (internet)
 - messaging (until we disabled that)
- Users:
 - Faculty
 - Staff (no staff have taken advantage of this to my knowledge)
 - Students (Mostly used by students in trimesters testing with ExamSoft or those needing a cable)

SETUP AND IMPLEMENTATION

Fontbonne
University

FLYING WITHOUT A NET

- Unlike Logan, whose IT Dept. managed their implementation, scrappy librarians implemented this small project.
- This is relatively new implementation and we are continually learning, discovering what works and what needs improvement.

DEVICE HISTORY

- Nooks and Kindles.
- Kindle Fires and Galaxy Tablets.
- Nexus tablets.
- More mindful this go around in both patron privacy and device management.

HOW / WHY DID WE ACQUIRE THE IPADS IN THE FIRST PLACE?

- Faculty member was awarded a grant using iPads in her research.
- After research was completed, 8 iPad Airs and 2 iPad Minis donated to the Taylor Library.

APPLE ID CREATION

- Fontbonne University already an Apple customer.
- IT Department required to create a sub Apple user account for the Library.
- Created a separate Apple Volume Purchase Program for Education (VPP) account.

HARDWARE REQUIREMENTS

- Mac desktop or notebook.
- USB port hub with charging.
- External hard drive to back up machine, if not networked.
- iPads.

SOFTWARE REQUIREMENTS

■ Apple Configurator Software

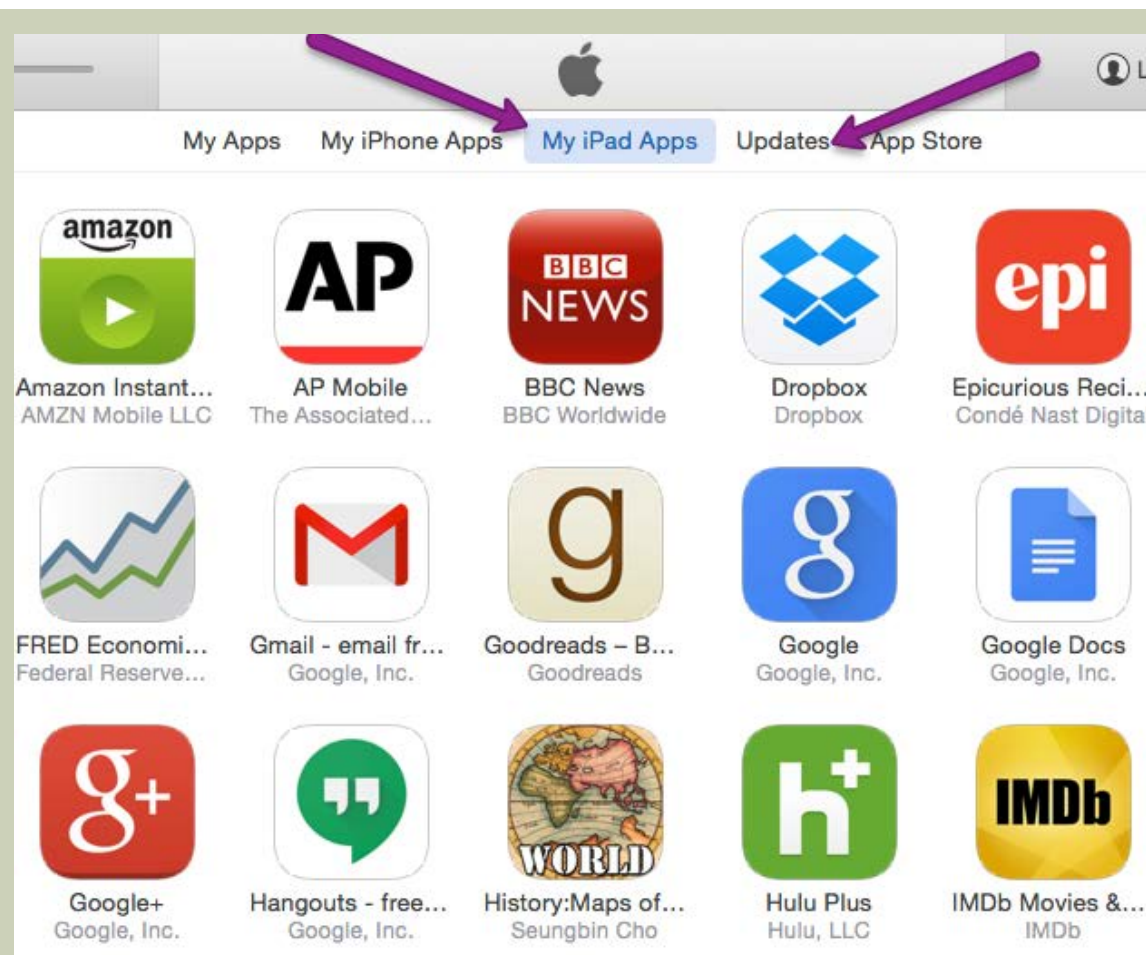

■ Time Machine

■ iTunes

ITUNES

- Download apps.
- Update apps. (More on updating apps later.)

APPLE CONFIGURATOR

- In the App Store, download the Apple Configurator software to the Mac.
- Configurator only runs on a Mac.

Search Results for "apple configurator"

Apple Configurator

Utilities

★★★★☆ 11 Ratings

OPEN ▾

APPLE CONFIGURATOR

- Designed to manage iPads for classroom or enterprise use in large numbers.
- Creation of multiple user profiles for multiple requirements.
- Such as lending iPads to student users, instructors, and administrators.
- Taylor Library does not require many of Configurator's features.
- And, as a result, our usage of the software is limited.

CONFIGURATOR NOMENCLATURE

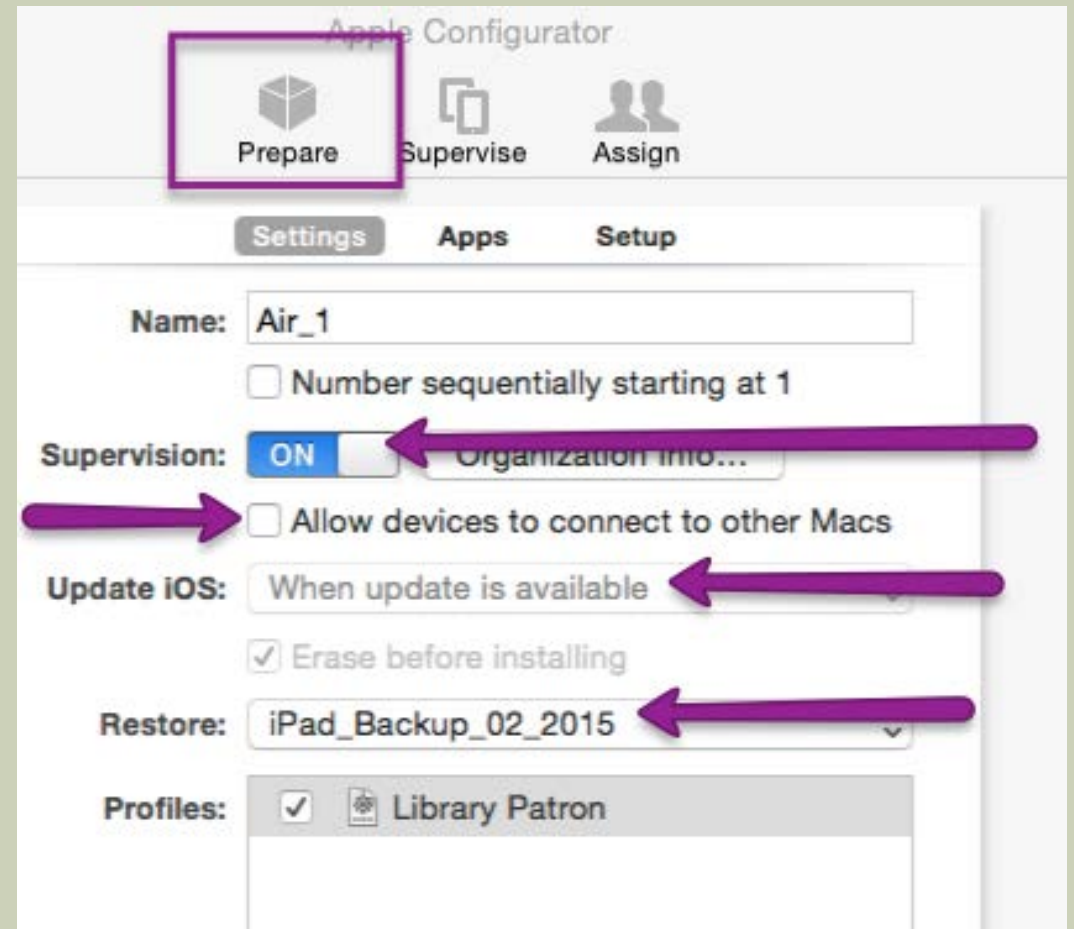

- Prepare
- Supervise
- Assign
- Settings
- Setup
- Restore
- Refresh
- Profile
- Check Out
- Configure

The screenshot displays the MDM Configurator interface with the 'Settings' tab selected. The top navigation bar includes 'Prepare', 'Supervise', and 'Assign' icons. Below this, the 'Settings' tab is active, with 'Apps' and 'Setup' tabs also visible. The main configuration area includes:

- Name:** Air_1
- Number sequentially starting at 1
- Supervision:** ON (toggle switch) and Organization Info... (button)
- Allow devices to connect to other Macs
- Update iOS:** When update is available (dropdown menu)
- Erase before installing
- Restore:** Air_Profile_02_2015 (dropdown menu)
- Profiles:** Library Patron (checkbox checked)

CONFIGURATOR PREPARE SETTINGS

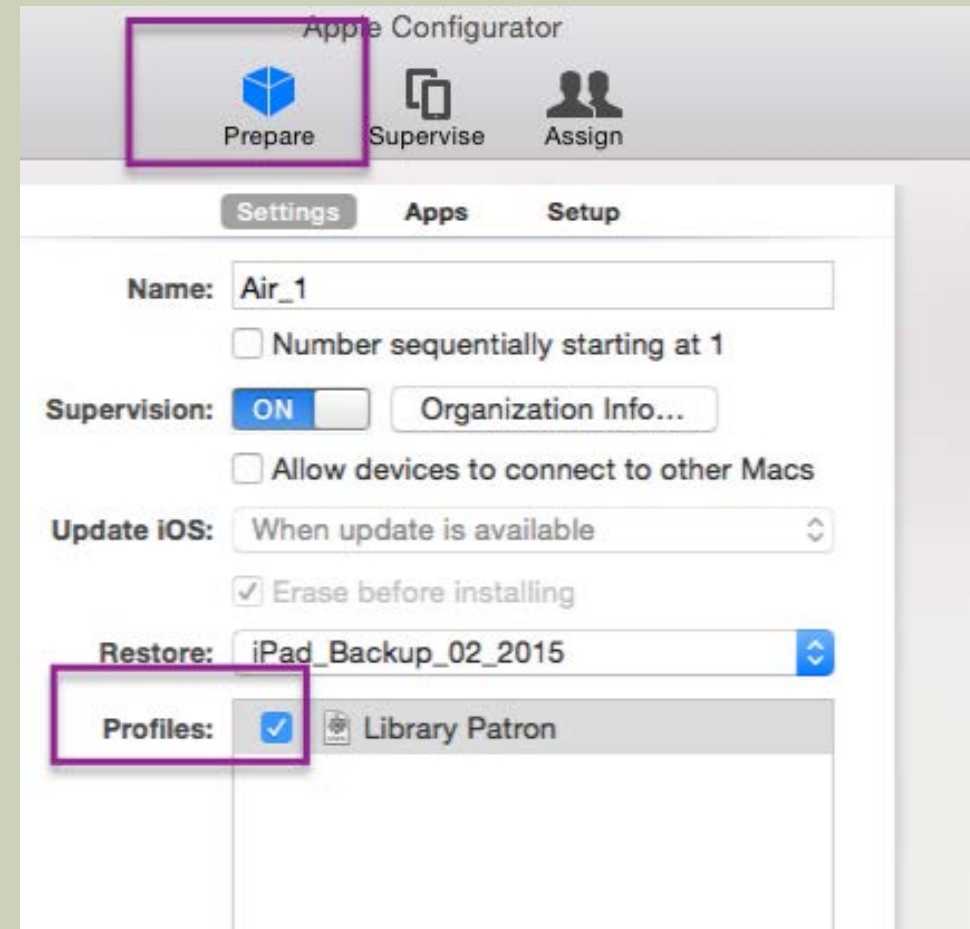

- Turned on device Supervision.
- Disallowed devices to connect to other Macs.
- Update iOS.
- Restore from backup.

CONFIGURATOR PREPARE PROFILES

- General settings
 - Organization name
 - Wi-Fi
 - Web Clips

- Restrictions for device functionality.

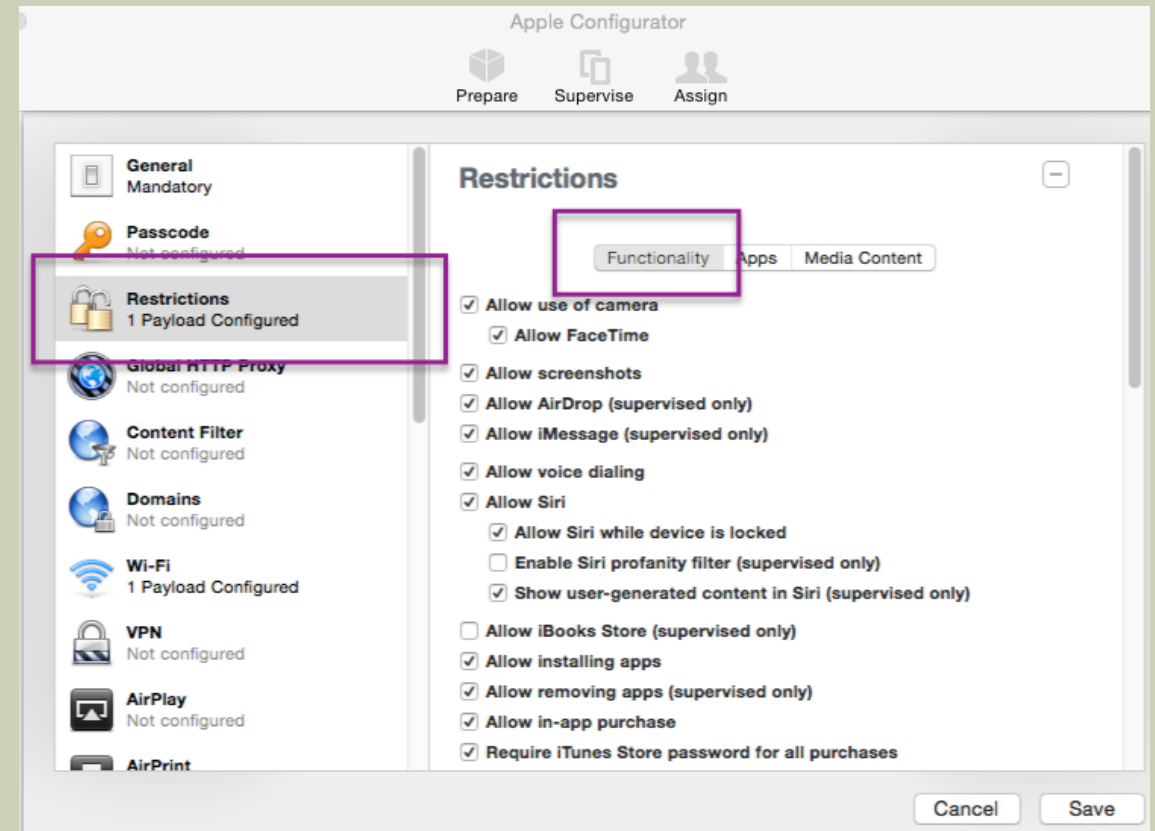

CONFIGURATOR PROFILES

- Profile restrictions can be used to :
 - Disable app downloads and/or in-app purchases.
 - Disable apps such as FaceTime and/or iTunes.
 - Disable the capability to change e-mail accounts, multiplayer gaming, media access.
 - Determine and set e-mail accounts, wireless network connections, passcodes, Safari preferences, user contacts and calendars.

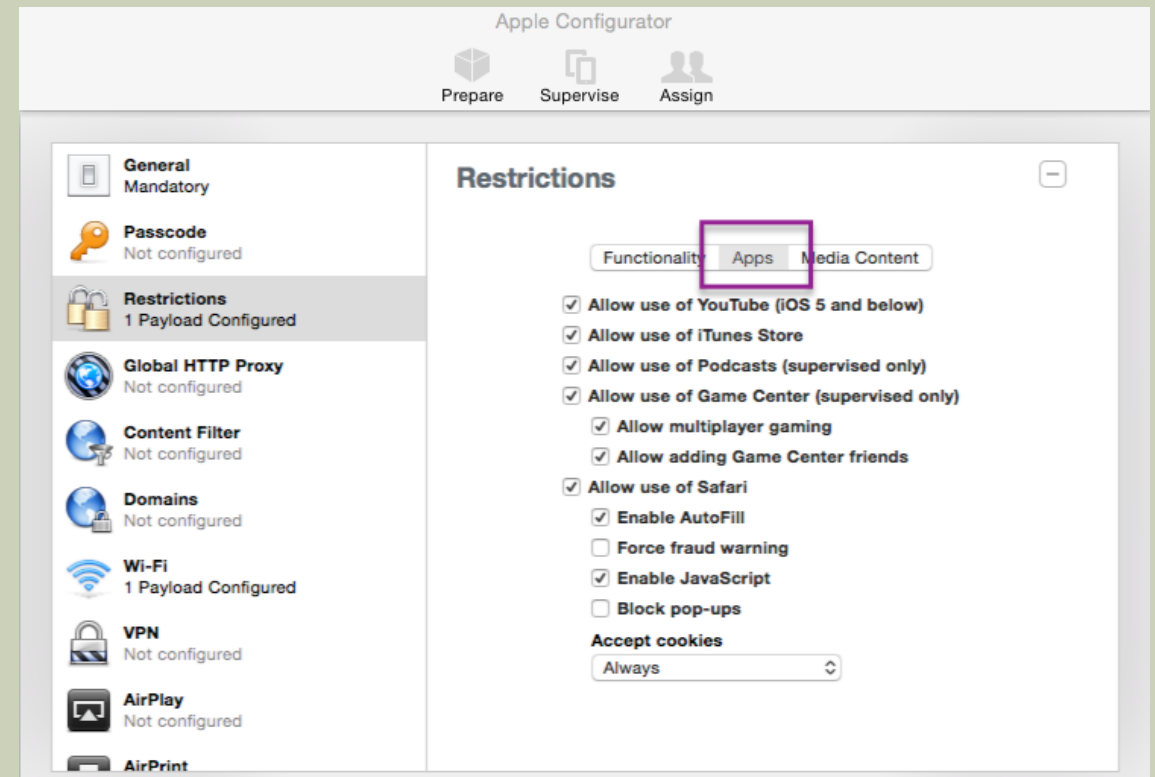

CONFIGURATOR PROFILE RESTRICTIONS FUNCTIONALITY

- Limit functionality of specific device features for both the end user and the Supervisor.

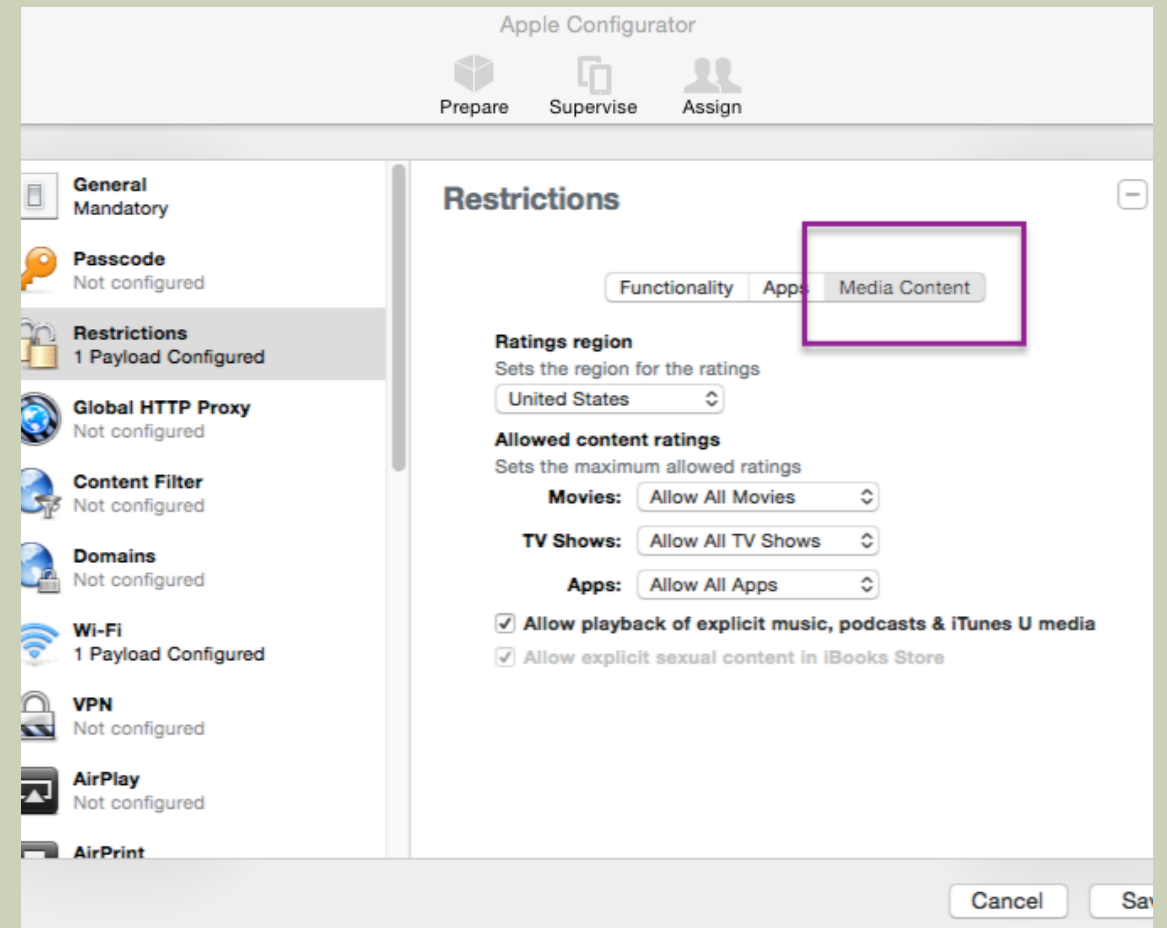

CONFIGURATOR PROFILE RESTRICTIONS APPS

- Limits the use of preinstalled Apps.

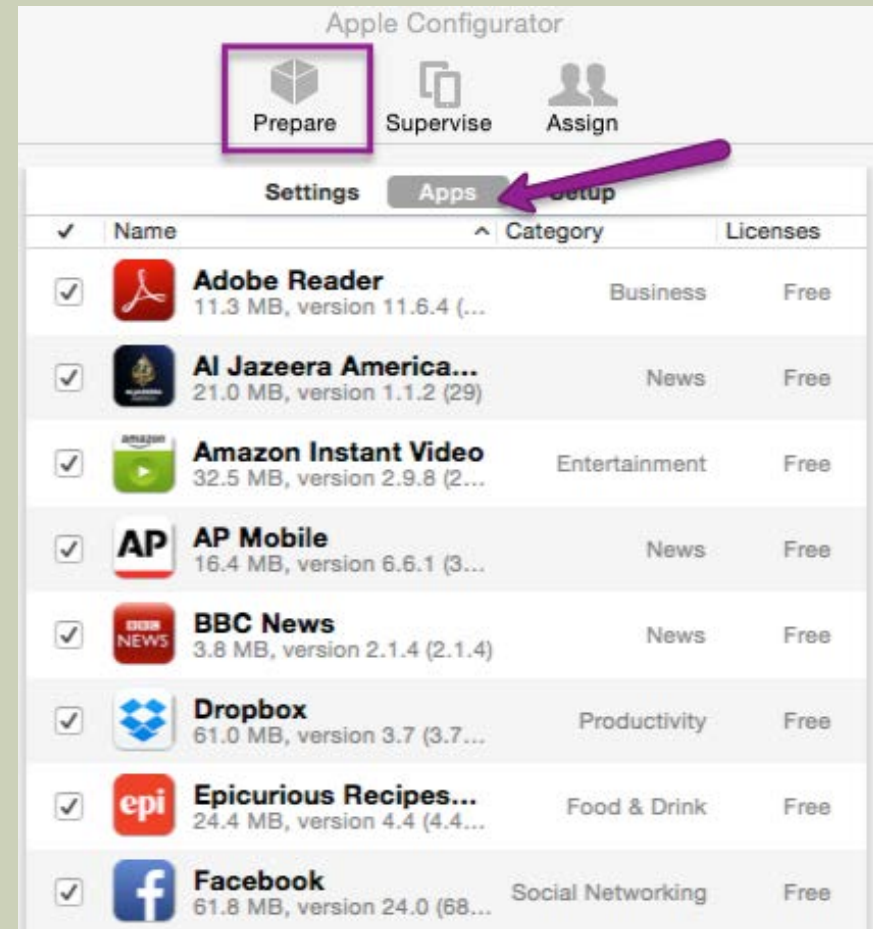

CONFIGURATOR PROFILE RESTRICTIONS MEDIA CONTENT

- Limits the use of media.

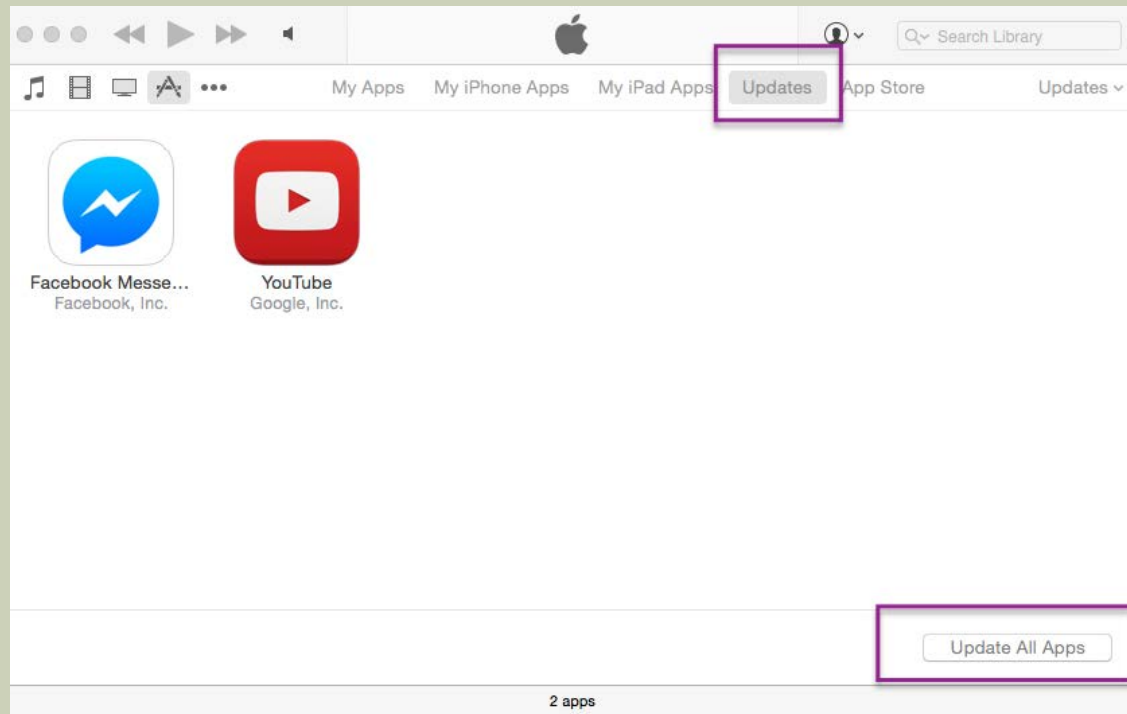

CONFIGURATOR PREPARE APPS

- Apps can be added or deleted from the Configurator software.
- Apps uploaded here from iTunes.

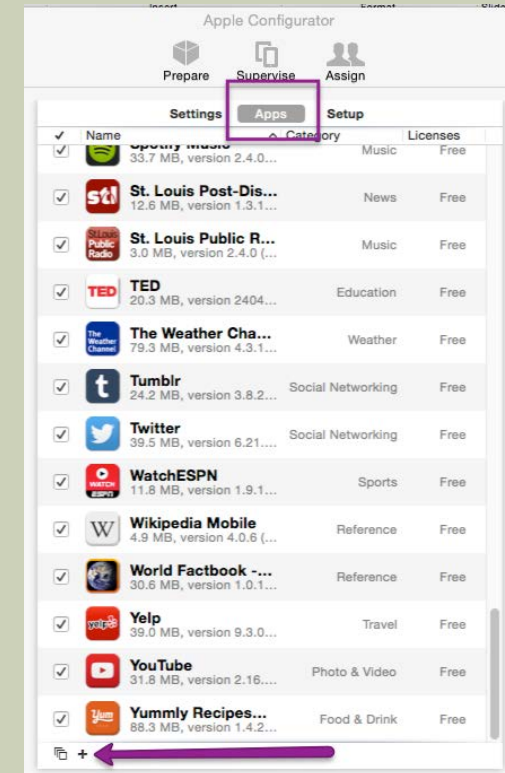

UPDATING APPS

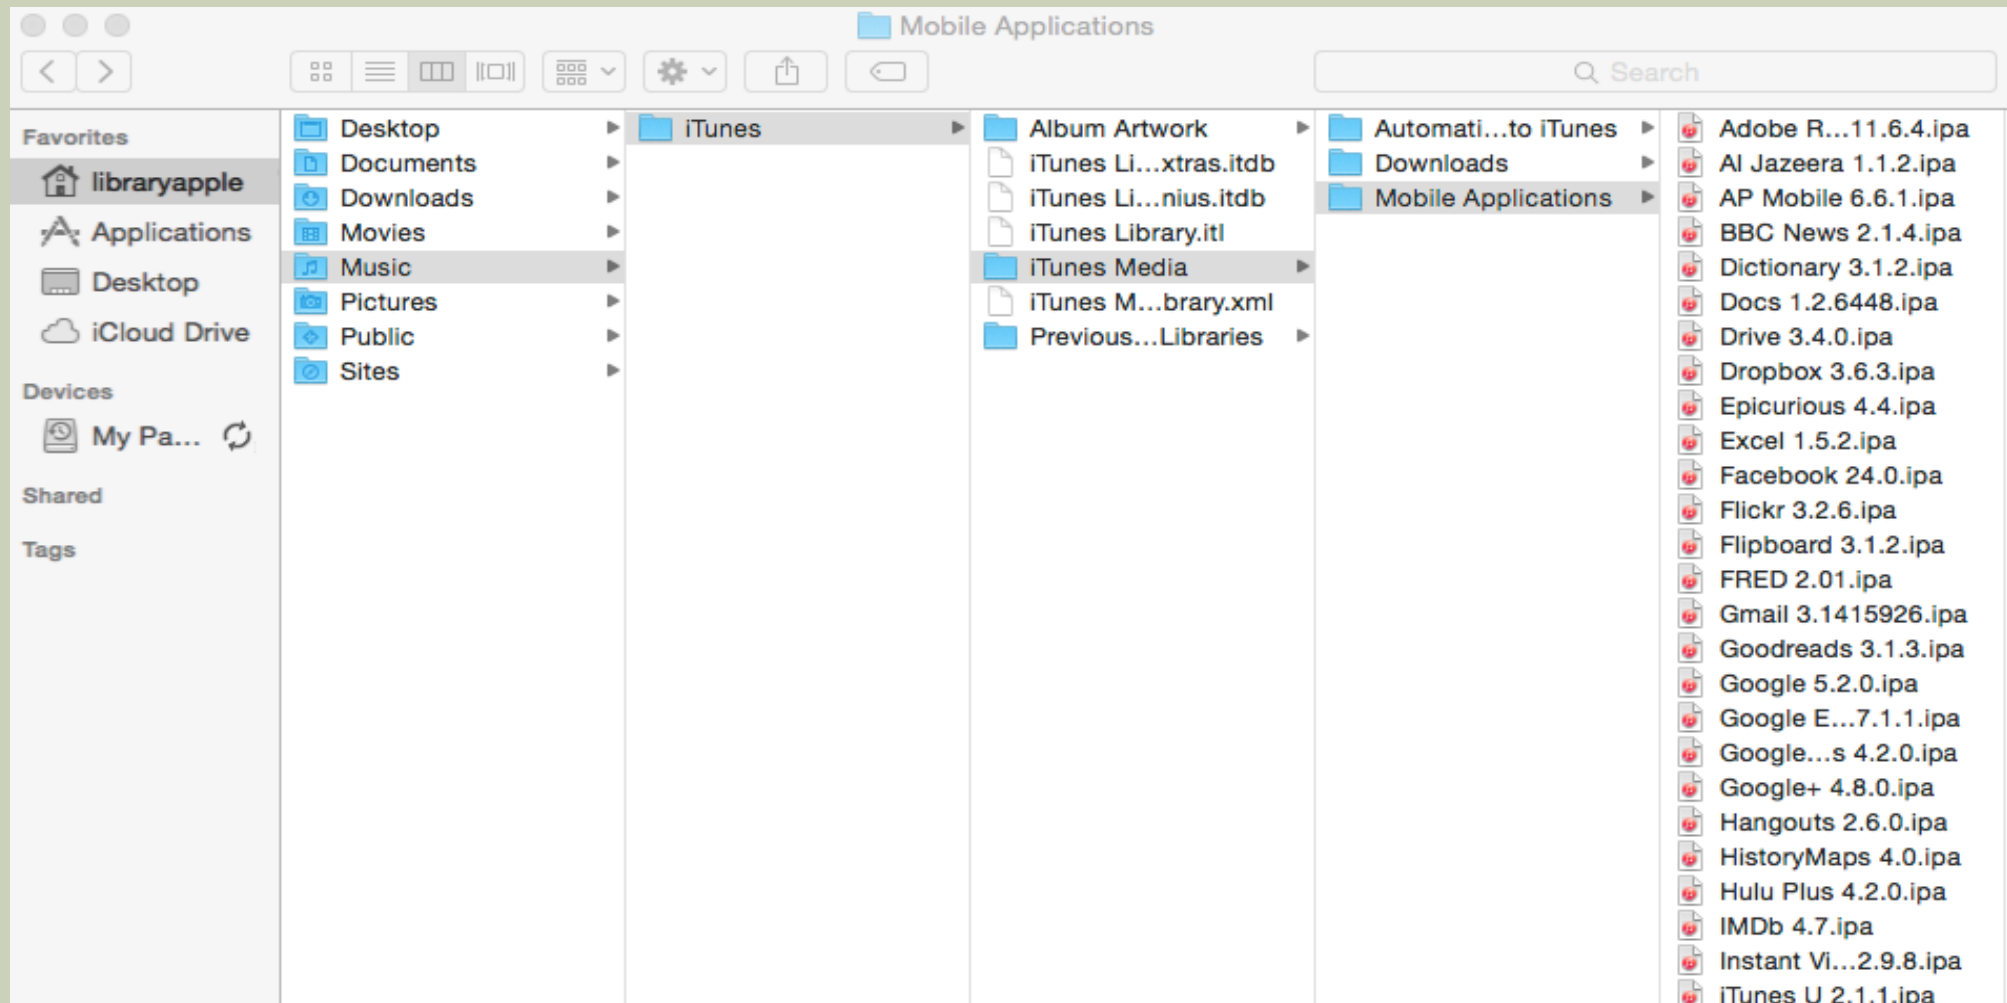

iTunes

Apple Configurator

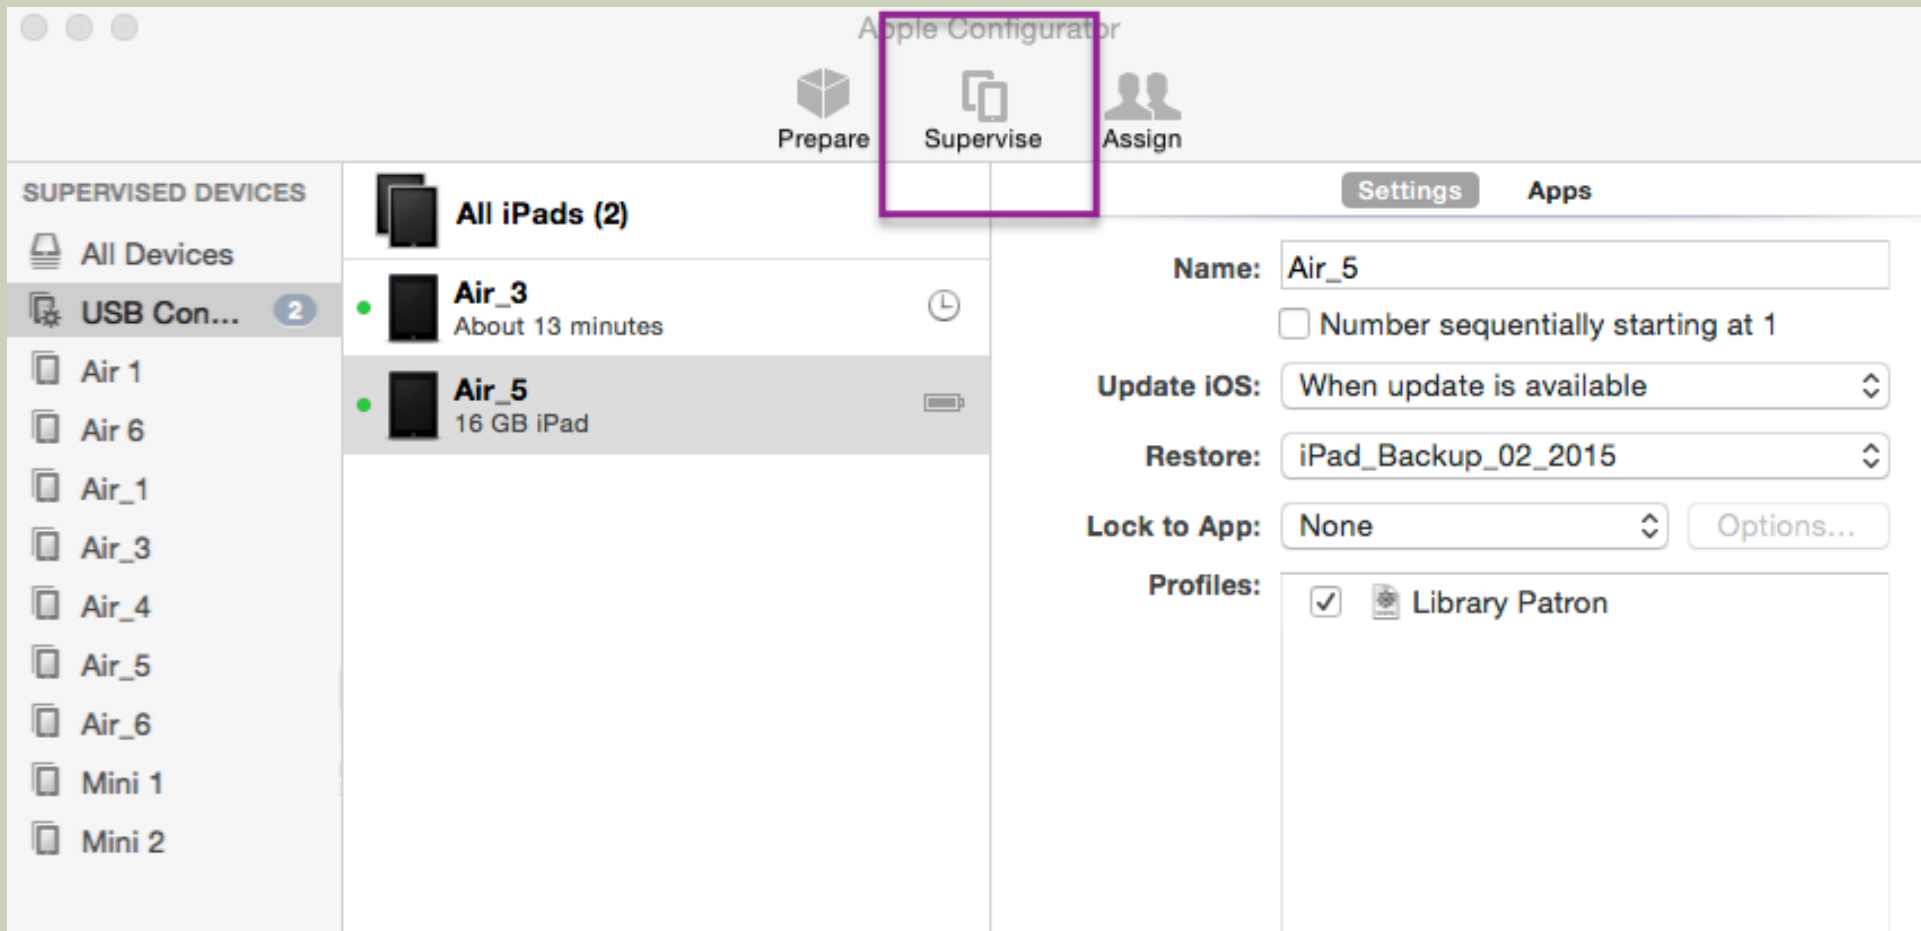

APPS LIVE IN ITUNES

MASTER IPAD DEVICE

- Used Configurator settings and 1 iPad to create a master iPad template with the settings and apps we wanted to deploy.
- Backed up that iPad master file into the Configurator.
- Supervised this backup to “restore” the devices after patron use.

APPLE CONFIGURATOR SUPERVISE

APPLE CONFIGURATOR SUPERVISE

The screenshot shows the Apple Configurator interface in the Supervise mode. The title bar reads "Apple Configurator". Below the title bar are three buttons: "Prepare", "Supervise" (highlighted with a purple box), and "Assign".

The main content area is divided into two panes. The left pane, titled "SUPERVISED DEVICES", contains a list of devices: "All Devices", "USB Con..." (with a '2' badge), "Air 1", "Air 6", "Air_1", "Air_3", "Air_4", "Air_5", "Air_6", "Mini 1", and "Mini 2".

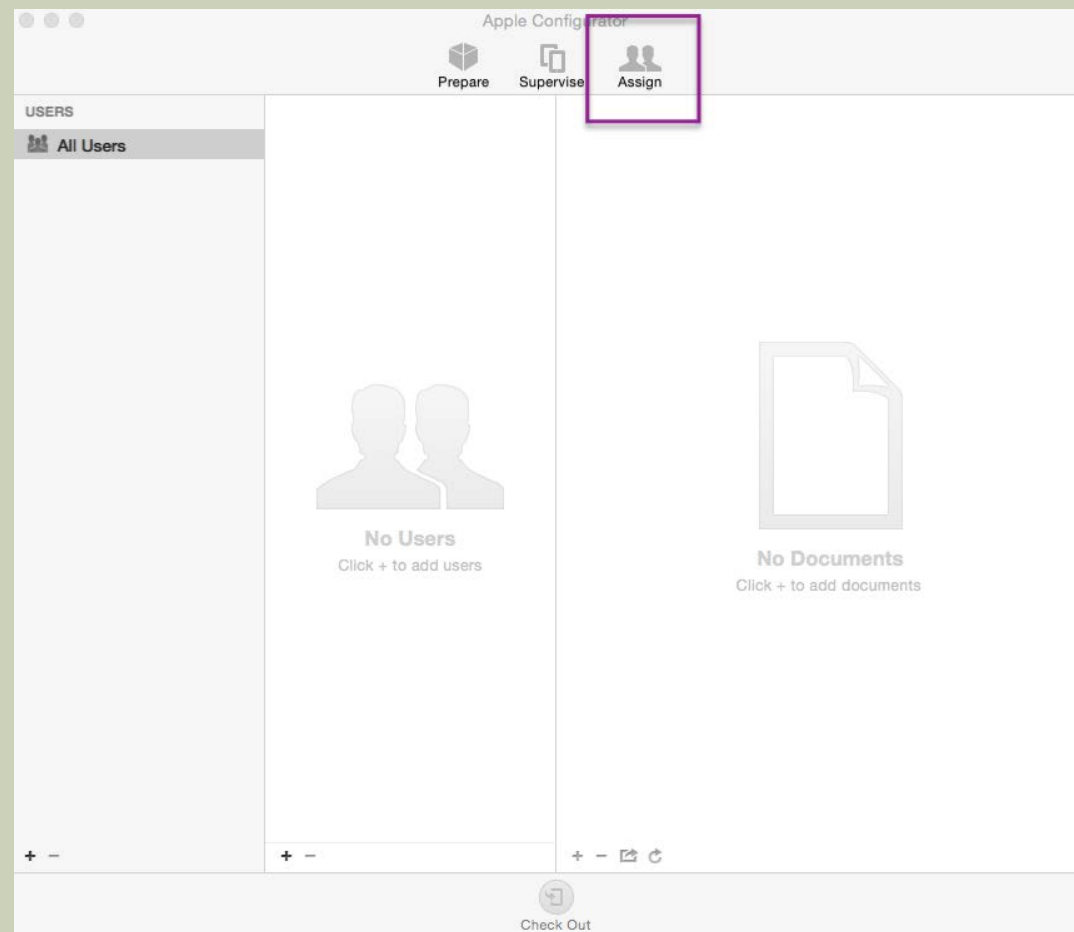

The right pane shows the status of the selected device, "Air_3". At the top, it says "Devices are being updated." with a "Stop" button. Below this, the device name "Air_3" is shown with a 99% battery icon. A "Refresh" button is visible, with a sub-label "About 10 minutes".

The bottom section of the right pane lists the applications being installed or updated:

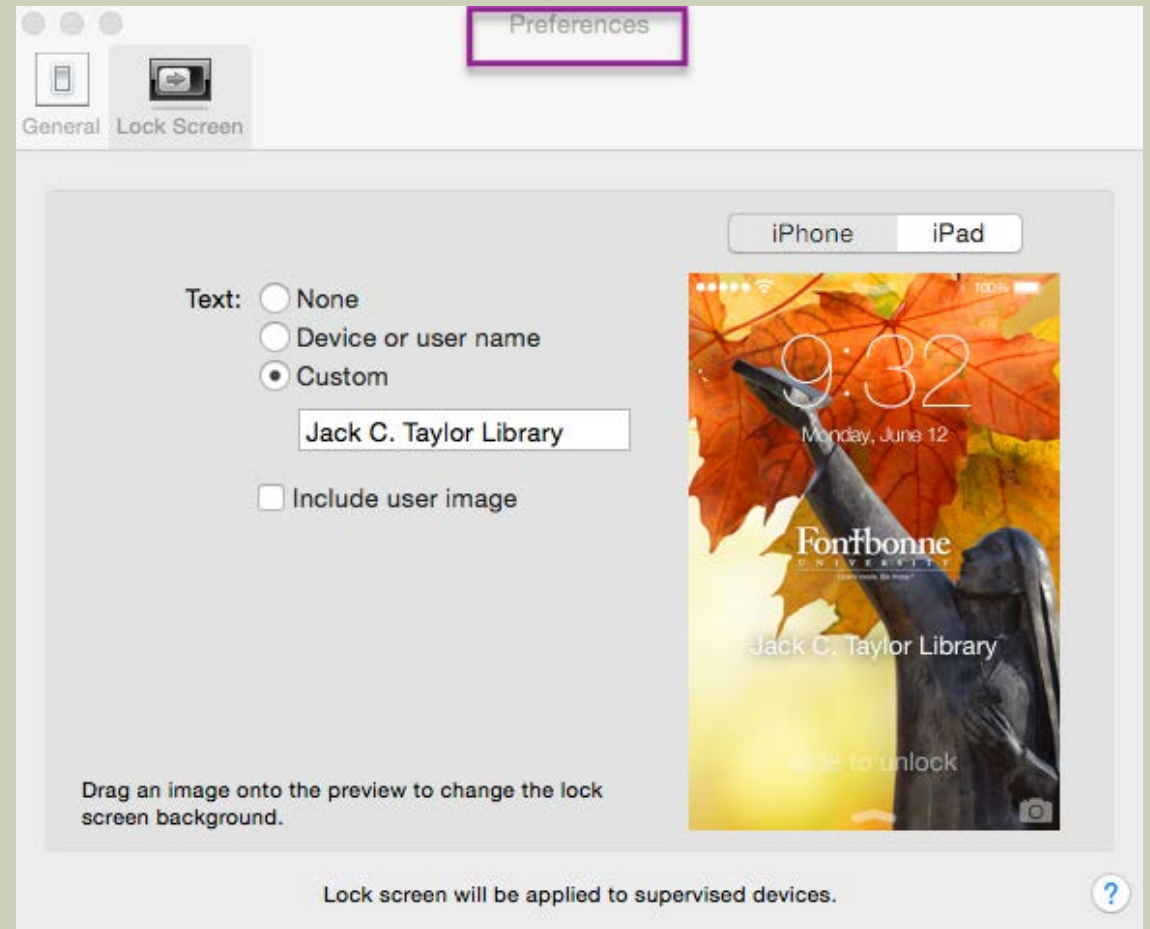

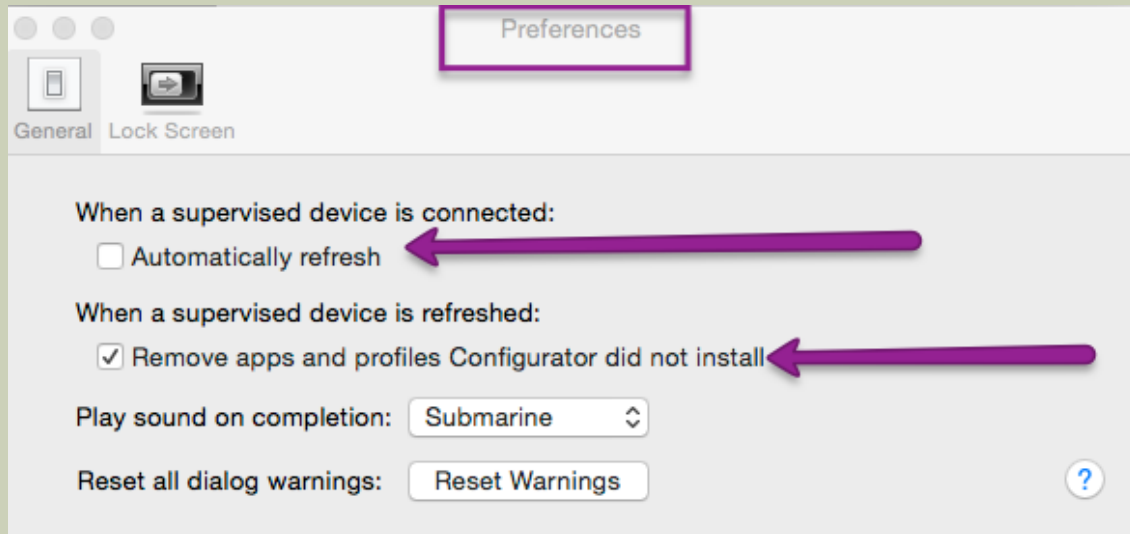

- Installing "History:Maps of World"
- Waiting to install "Google"
- Waiting to install "Merriam-Webster Dictionary HD"
- Waiting to install "Google Maps"
- Waiting to install "Adobe Reader"
- Waiting to install "Khan Academy: learn math, biology, chemi..."
- Waiting to install "BBC News"
- Waiting to install "Netflix"
- Waiting to install "Google Drive - free online storage from Google"
- Waiting to install "TED"
- Waiting to install "Flipboard: Your Social News Magazine"

ASSIGN IPADS

- Assign is optional.
- Allows an IT department to function as its own device library.
- Ability to assign devices to various class levels, instructors, etc.
- Fontbonne does not use.

Tablets & E-Readers: Check One Out Today!

Availability

As part of our [Mission](#) to provide resources that promote lifelong learning, the Library offers a variety of e-readers and Apple, Android, and Amazon tablets for two-week checkout. The devices are available first-come-first-served to all Fontbonne students, faculty, and staff in good standing. Current identification must be provided. Requests for specific units can be made through the [Catalog](#) or at the Circulation Desk; we will email your Fontbonne account when they become available.

Groups of devices also may be made available to faculty for classroom use. You can direct requests to Mark Glenshaw in Circulation: mglenshaw@fontbonne.edu / 314-719-8088. Please provide at least two weeks' notice and include any special requests.

Renewals & Returns

Renewals are not allowed at this time. Each tablet includes a USB cable, a power adapter, a cover, and a carrying case. For your protection, please return all pieces to the Circulation Desk in person to be checked in. There is a 24-hour turnaround time for all devices when they are returned.

Fines & Damages

Units and/or accessories not returned within three (3) business days of the due date will be billed to your Library account.

- Device: \$500
