Certified Trainer

Objectives

- 
- We will be able to use **Google Tour Builder** and **Google My Maps** to create customized maps to share content.
 - We will examine how to bring the world to our learners through **Google Earth**, **Google Cultural Institute** and **Google Expeditions**

An aerial photograph of a city with a river winding through it. A specific area is outlined in black, and a yellow banner is overlaid on the map.

Tell a Story with Maps

Go on a journey with Google [My Maps](#)

Create maps to share content with text, images, videos or web links.

(km)

10

With My Maps

- Add places by adding a marker to your map
 - ◆ Customize your marker
 - ◆ Search for and add images
 - ◆ Add descriptions, including web links
- **Draw a line** from places: driving, walking, etc
- **Find distance.**
- **Collaborate** to create a map of experiences.
- The Gallery includes hundreds of created maps.

Check out my example of an Amazing Race Activity.

Tell a story with Google Tour Builder

Add photos, links, text and videos to Google Earth technology to share content about locations on a map.

Google Tour Builder

Tell a story
using places,
images and
video.

With Google
Earth, see
roads, terrain,
and more.

Visit the
[Gallery](#) to see
more.

See my [example](#).

An aerial-style map of a city, likely London, showing a river (the River Thames) winding through the urban landscape. The map includes a scale bar in the bottom left corner. A yellow banner is overlaid on the right side of the map.

See the World with Google

See the World with Google Earth

From outer space to canyons in the ocean, fly anywhere on Earth and view satellite imagery, maps, terrain and 3D buildings.

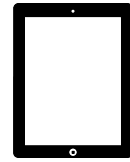

0 (km)

10

Google Earth

Use the Search bar to select a destination and GO!

Web-based and app based for use on all devices.

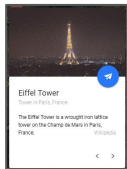

Save places or share with classroom

See Guided Stories, or tours, on topics like travel, culture, nature, and history.

Drag Pegman to your map to view your location in Street View.

Learn more about your places with Knowledge Cards.

Explore history and the arts with [Google Cultural Institute](#)

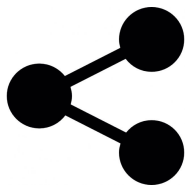

Explore museums across the globe, learn about historical events and celebrated artists by touring the collections found in Google Cultural Institute.

Google Cultural Institute

“Walk” through museums and explore 360 images where you see pegman.

Share collections in Google Classroom--Don't use Google Classroom? Get a link via email.

Use the Explore tab to learn about historical events, famous people, art mediums, or museum collections.

See what's available in your community by exploring collections **nearby**.

Creative coders and artists join together in **Experiments** in order to look at art and culture in a different perspective.

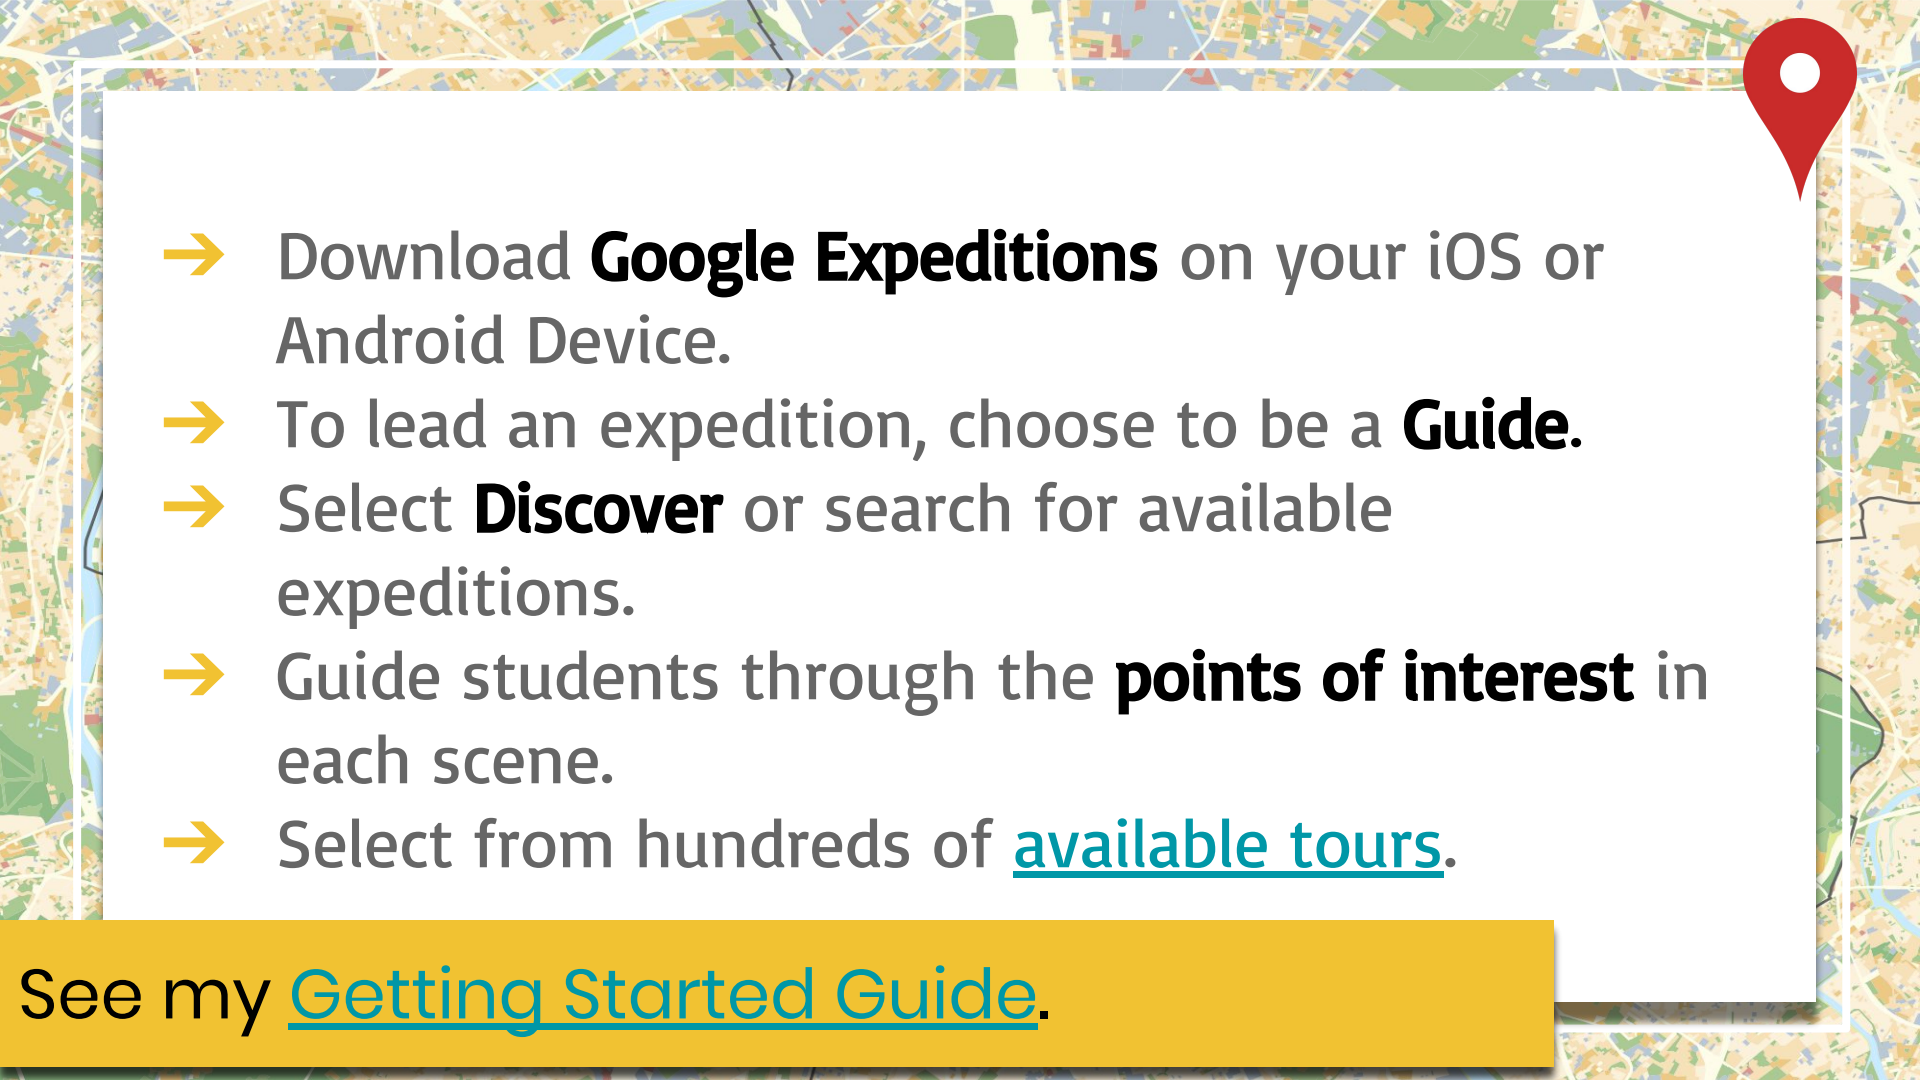

Go Places with Google Expeditions

Lead or join immersive virtual trips all over the world – get up close with historical landmarks, dive underwater with sharks, even visit outer space! Explore collections of 360° images and point out interesting sites along the way.

0 (km) 10

- 
- Download **Google Expeditions** on your iOS or Android Device.
 - To lead an expedition, choose to be a **Guide**.
 - Select **Discover** or search for available expeditions.
 - Guide students through the **points of interest** in each scene.
 - Select from hundreds of [available tours](#).

See my [Getting Started Guide](#).

Introducing... Google Tour Creator

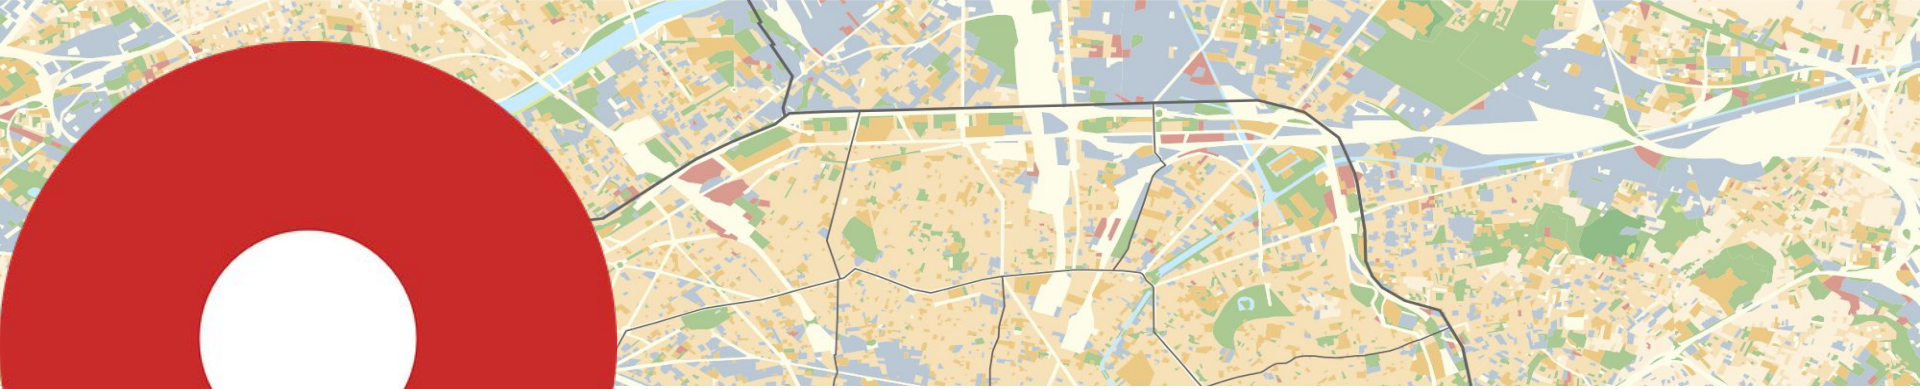

- Add 360 images
- Tag Points of Interest for specific information
- Include ambient noise or voice overs to describe the scene.

Check out [My Summer Vacation.](#)

An aerial photograph of a city with a river winding through it. A black outline highlights a specific area in the center-left of the image. A yellow banner with black text is overlaid on the right side of the map.

Now, it's your turn!

Thank You!
